

# TOPAZ

VISIT US  
[thinktopaz.cz](http://thinktopaz.cz)

We are the official think tank of the TOP 09 political party. Our aim is to help cultivate public space, to be an incubator of new ideas, and to name the main social and political problems and offer solutions to them.

With the help of our academic team, and in collaboration with experts and politicians, we actively formulate innovative approaches and visions for modern and responsible politics. We do this primarily by organising public debates, conferences with international participation, and seminars with experts on specific topics, and by publishing analyses, studies, and policy papers.

## OUR KEY FIGURES

- 200+ conferences, seminars, and roundtables in the Czech Republic and Brussels
- 100+ trainings and workshops
- 50+ policy papers
- 40+ podcasts
- 20+ professional proceedings and newsletters

SCHWARZENBERG  
PRIZE

TOPAZ

## CONFERENCES AND PUBLIC DEBATES

We hold a series of debates and conferences on topical issues that move our public space. Our aim is not only to debate issues and contribute to the development of civil society, but also to bring together leading politicians with professionals from around the world and the professional public to contribute to improving the quality of political culture, public debate, and international understanding and cooperation.

## PUBLICATIONS AND ANALYSES

Our academic team, in cooperation with our own and foreign experts, responds to current issues and tries to offer solutions and name contemporary social and political trends. Our main activity is the publication of proceedings, policy papers, research papers, and analyses.

## TRAINING AND SEMINARS

Only an educated society can be resilient to threats. That's why we organize roundtables and educational events for professionals and the public, as well as seminars for novice and experienced politicians.

## THE KAREL SCHWARZENBERG PRIZE

The Karel Schwarzenberg Prize for the best scientific student work is awarded by the TOPAZ Academic Board to three selected students or recent graduates from 2020 onwards. The topic of the thesis should reflect current political, economic, and social issues. The winners are awarded a financial prize and their papers are published electronically by the TOPAZ Policy Institute and posted on the TOPAZ website.
